ADVANCED CARDIOVASCULAR LIFE SUPPORT (ACLS)

- American Heart Association (AHA) Course
- Opengate Health Services Ltd (OGHS)
- AHA Training Site
- Train • Lead • Save a Life

Why ACLS?

Cardiac arrest and life-threatening arrhythmias require rapid, structured, team-based response.

Beyond basic CPR, clinicians must recognise rhythms, manage airways, and deliver drugs and shocks appropriately.

ACLS training helps providers to:

- Apply the AHA Adult Cardiac Arrest and Brady/Tachy algorithms
- Recognise and treat peri-arrest conditions early
- Lead and participate effectively in resuscitation teams
- Improve survival and neurological outcomes after cardiac arrest

Who Should Attend?

The AHA ACLS course is designed for healthcare professionals who direct or participate in the management of cardiopulmonary arrest and cardiovascular emergencies, including:

- Medical officers and resident doctors
 - Anaesthetists and intensivists
 - Emergency and critical care nurses
 - Theatre / recovery room staff
 - Paramedics and advanced life support providers
 - BLS Provider certification is usually required prior to ACLS.
-

What You Will Learn

- Key ACLS skills and knowledge include:
- Adult BLS review with high-quality CPR and AED use
- Recognition and management of respiratory arrest
- Management of shockable and non-shockable cardiac arrest rhythms
- Use of defibrillation, cardioversion and pacing
- Airway management and ventilation strategies
- Recognition and treatment of bradycardia and tachycardia
- Post-cardiac arrest care principles
- Effective team dynamics and leadership in resuscitation

Course Format And Certification

Course Format:

- Duration: Usually 2 days (depending on class size and format)
- Method: Pre-course self-study, lectures, videos, skills stations and case-based mega code simulations
- Assessment: Skills testing, rhythm and algorithm interpretation, and written multiple-choice exam

Certification:

- American Heart Association ACLS Provider e-card
- Valid for 2 years and internationally recognised.

Renewal / update courses are available for providers whose ACLS is expiring.

Why Train With OGHS?

Accredited American Heart Association (AHA) Training Site

- Faculty with strong ICU, emergency and anaesthesia experience
- Realistic simulations using manikins, monitors and emergency scenarios
- Flexible scheduling for hospitals and organisations
- Option to combine ACLS with BLS and Heart saver for comprehensive packages

OGHS helps hospitals build competent code teams and strengthen emergency response systems.
